RELEATED EXPERIENCE

Austin Community College

1994 - 1995

Developed and Maintained IT Professor Dr. Judy Scholls' class website. This was a dynamic website written in HTML and Perl scripting languages consisting of a user log in, access to class materials and test scores. I also worked part time an IT Lab & Teaching Assistant.

Austin Community College

Information Technology & Network Department

1996 - 1999

Managed the ListServ on the Linux network and assisted network engineers.

Freelance Programmer**2000 - Present**

Developing various Visual Basic, C and PHP programs, Linux based scripts and website development.

Own & Operate DMG Designs**2004 - Present**

DMG Designs is an IT consulting, web development and web hosting company that develops and maintains custom websites. DMG Designs also develops custom modules for Content Management Systems. Clients include Armand Bayou Nature Center, Marine Corps League Detachment #668, Friends of the West 11 Street Park, and others.

Developed and maintain my church website on a volunteer basis**2005 - Present**

I work closely with church staff, church committees and the IT Committee that I chair, to develop and maintain our dynamic website.
